This application is in condition for allowance except for the following formal matters:

Inventorship

The request to correct the inventorship of this nonprovisional application under 37 CFR 1.48(a) is deficient because:

It lacks the written consent of any assignee of one of the originally named inventors.

The statement of facts by an inventor or inventors to be added or deleted does not explicitly state that the inventorship error occurred without deceptive intent on his or her part or cannot be construed to so state.

The examiner notes that Applicants have stated in papers filed 13 August 2007, "A statement from Mark D. Woodruff, Scott A. Salvage and Leslie L. Zinger is attached indicating that the error in inventorship occurred without deceptive intention on their respective parts," however, the patent application file does not have record of any such signed statement. Also, the papers filed 13 August 2007 state that written consent of the assignee is attached, and again, the patent application file does not have record of any such signed statement.

Stephen S. Hancock remains the sole inventor of the instant application.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

Art Unit: 3745

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
